

Sr. BI Analyst

AXS — AEG Worldwide

■ Los Angeles, CA (Hybrid) | ■ \$78,000 – \$90,000 / year | Full-time

Posted: November 1, 2025 | Source: Indeed

SQL Requirement: "Leverage strong analysis competencies to drive business insights across AXS through SQL, Looker as well as Google & Adobe Analytics."

About AXS

AXS connects fans with the artists and teams they love. Each year we sell millions of tickets to thousands of incredible events — from concerts and festivals to sports and theater — at some of the most iconic venues in the world. Since our founding in 2011, we've consistently pushed the industry forward and improved experiences for fans, making it easier than ever to discover events, find the perfect seats, and enjoy unforgettable live entertainment.

The Role

The Sr. Business Intelligence Analyst will contribute to a growing team as we scale those offerings and continue to build meaningful data insights for the business. This role will work directly with AXS data leadership as well as clients and partners in the US and abroad (Europe and Japan).

What Will You Do?

- Leverage strong analysis competencies to drive business insights across AXS through **SQL**, Looker as well as Google & Adobe Analytics.
- Develop ongoing performance reporting for management in all operational areas of the business and distribute reports as needed.
- Provide in-depth analysis of web analytics & marketing data and summarize findings with recommendations.
- Mentor junior team members as it relates to analysis best practices.
- Contribute strong analyses to the creation of business insights & recap presentations.
- Monitor data sources & ensure the accuracy of data for reporting purposes.
- Drive complex problems through to solutions.
- Work across functions in the organization and with clients and partners to understand and address their data & analysis needs.
- Build LookML models & Looker dashboards to communicate insights.

What Will You Bring?

- BA/BS Degree (4-year); Advanced Degree Preferred — in Business, Analytics, MIS, Economics or another analytical field.
- 4–6 years in Business Analytics, MIS, Economics or another analytical field.
- Experience with digital and/or social media marketing & web analytics.
- Experience with modern analytic & data visualization tools.
- Experience with programming and/or statistical analysis tools (e.g., **SQL**, R, Python, SAS).
- Strong quantitative analytical skills, with the ability to derive insights from large data sets.
- Strong written and verbal communication skills, with the ability to present complex findings to executives and field staff.
- General business acumen, with the ability to analyze the live events industry and recommend improvements.
- Comfort with the Microsoft Office suite as well as advanced analytical tools & data analysis methodologies.
- Willingness to adapt to a fast-paced work environment; hack, test and learn mentality; team player.

Bonus Points If You Have:

- **Music or other entertainment experience** — a passion for music and knowledge of artists and industry trends preferred.
- Certified Business Intelligence Professional.

Compensation & Benefits

Pay Scale: \$78,000 – \$90,000 + bonus eligibility

Full benefits package including medical, dental, vision, paid holidays, vacation and sick time, company paid basic life insurance, voluntary life insurance, parental leave, 401(k) with 3% employer match, FSA/HSA options, wellness offerings, and tuition reimbursement.

Interview Process

- Stage 1: 20–30 min virtual interview (Recruiter)
- Stage 2: 30-min virtual interview (Hiring Manager)
- Stage 3: 1-hour team interview with case study presentation
- Stage 4: 30-minute executive interviews
